

K9 Badger's Internet Safety Adventure!

**A fun guide to staying safe
online with K9 Badger
and the Idaho ICAC Task
Force**

The internet is a great place to learn, play, and explore — but every adventure is safer with the right guide.

This activity book was created by the Idaho Internet Crimes Against Children (ICAC) Task Force to help kids build smart and safe online habits in a fun and engaging way.

With help from K9 Badger, children will learn how to protect personal information, be kind online, make safe choices, and know when to ask an adult for help. Our goal is to give families an easy way to talk about online safety and empower kids to make good decisions, whether they're gaming, watching videos, or chatting with friends.

Thanks for joining Team Badger and helping keep Idaho's kids safe online. Enjoy the adventure!

Help K9 Badger find a grown-up to tell

If something online makes you feel confused, scared, or uncomfortable, stop right away, block the person if you can, and tell a trusted adult.

Gaming Safely

Which side do you think shows K9 Badger practicing safe gaming?

**I am going to
turn off chat
features and only
play with friends
I know**

**It is okay to play
with people I do not
know and chat with
them**

Not everyone online is who they say they are—never share personal info or chat outside the game.
